

Developing the EU long-term climate strategy

The Challenge Ahead

****Draft Agenda****

Date: June 14, 2018

Time: 09:15-13:30

Venue: Enel, Auditorium – Via Mantova 24, Rome

This workshop aims to present and discuss the results of the “Developing the EU long-term climate strategy” project. The technical and policy papers are the deliverables of a yearlong effort, which included an initial brainstorming in Brussels in June 2017, followed by a series of stakeholder engagements in several EU capitals at the beginning of 2018. The consultative process was concluded in March 2018 and the project’s outcomes were first presented on April 18th in Brussels. In this event we will focus on the key choices and challenges but also on the risks and opportunities awaiting stakeholders within the development of the EU Long Term Climate Strategy.

9:15 – 9:45

Coffee and registration

9:45 – 10:15

Presentation of project results

A. Marcu, ERCST and G. Zachmann, Bruegel

10:15 – 11:10

Panel I: The role and relevance of EU long-term climate strategy - Key choices to be tackled and main stakeholders to be reached

Presentation by: A. Marcu, ERCST and/or G. Zachmann, Bruegel

Key Topics:

- The timeframe – The balance between long term vs short term and the relevance of the speed of change
- Granularity – The need for a sectorial focuses while keeping systemic implications in mind
- Policy drivers – The challenges of choosing between a climate focused, a multiple benefits and a fully integrated approach

Respondents:

F. Fricano, [MATTM](#)

MG. Midulla, [WWF](#)

D. Agostini [Enel](#)

R. Orsini, [Fondazione Sviluppo Sostenibile](#)

Open Discussion with participants

- 11:10 – 11:25 **Coffee Break**
- 11:25 – 12:20 **Panel II: From Vision to Policy - Developing scenarios, mapping policy choices, assessing impacts**
Presentation by: A. Marcu, ERCST and/or G. Zachmann, Bruegel
Key Topics:
- Scenarios – Managing an evolving economic, political and technological context
 - Policies – Setting out policy options with an open mind
 - Impacts – Taking into consideration the full range of economic, social and environmental implications
- Respondents:**
G. Perrella, [MISE](#)
G. Onufrio, [Greenpeace](#)
M. Beccarello, [Confindustria](#)
S. Besseghini, [RSE](#)
- Open Discussion with participants**
- 12:20 – 13:15 **Panel III: The “technical” choices – From modelling to measuring**
Presentation by: A. Marcu, ERCST and/or G. Zachmann, Bruegel
Key Topics:
- Ambition – The challenge of measuring the level of ambition
 - Impacts – Modelling and monitoring the full range of implications
 - Innovation – Integration of potential technological disruptions
- Respondents:**
M. Viridis, [ENEA](#)
M. Contaldi, [ISPRA](#)
E. Zanchini, [Legambiente](#)
G. Cicoletti, [Elettricità Futura](#)
- Open Discussion with participants**
- 13:15 – 13:30 **Conclusions and wrap up of the meeting**
- 13:30 – 14:30 **Light Lunch**
